Itinerary *All times listed are for the **Pacific Time Zone***

- **Day One:** Your trip meets in Marble Canyon, AZ. You will spend the first night at the Marble Canyon Lodge. Your motel accommodations are included in your package. Please let us know your preferred accommodations no later than 1 month prior to your trip. If we do not hear from you we will make your accommodations for you.

You will meet your guide for an orientation meeting at **8:00 p.m.** The location of the orientation meeting can vary so when you check-in the person at the front desk will let you know where this meeting will be held. At the orientation meeting you will receive some of the gear you will use on the river such as a dry bag which you will load your personal bag into.

You are on your own for your dinner this night and breakfast the next morning. There is a small restaurant located at Marble Canyon.

- **Day Two-Day Six:** A van provided by Marble Canyon Lodge will pick you up in front of the motel in the morning and transport you 6 miles to Lee's Ferry where you will meet your guides and launch on your river trip. Once you push off from Lee's Ferry you will be given a boat and safety orientation by your guides that will include how and where to sit on the rafts, how to hold on, and safety precautions while on the river and in camp.

From there you will start your adventure through the Grand Canyon. Each day you will run exciting rapids such as Hance, Granite, Hermit & Crystal, explore unique side canyons such as Elves Chasm, Deer Creek and Havasu Falls, be treated to delicious meals, hear and see some of the history and geology of the Canyon from your very knowledgeable guides and generally enjoy the majestic grandeur of the Grand Canyon. Each night you will camp on cots under the stars along the beaches of the river.

- **Day Seven-Day Eight:** In the morning you will leave camp and be on the rafts for a short time before arriving at the helicopter pad at Whitmore Wash. Once at Whitmore Wash the people who are only staying for the 6 night trip will board a helicopter and fly out of the canyon. A new group of people will helicopter in for the last two nights of the trip. Once the new group arrives you will continue down river to experience more exciting rapids, beautiful side canyons and great camping.
- **Day Nine:** After breakfast you will arrive at Pearce Ferry Boat Ramp, on Lake Mead, at approximately 8:30 a.m. You will then board a bus for your transfer back to the Las Vegas McCarran Airport. You should arrive at the airport at approximately 2:00 p.m. **Please do not book any departure flights before 4:00 p.m. this day!**

Typical Day

A typical day on the river will include rafting for a few hours at a time, stopping for scenic side-canyon hikes, bathroom breaks, a stop for lunch, and lots of fun, laughter, learning, and excitement in between.

After a full day of river excitement you will arrive in camp. Guests will be given time to find their favorite campsite and then return to the rafts to create a "fire line" which is how we load and unload the rafts. Your help in passing the gear on and off the boat is greatly appreciated and can help you to really feel a part of the whole river experience but if you have physical restrictions or limitations that keep you from participating in this you are not required to.

The first evening in camp your guide will give a demonstration of how to easily assemble the cots you will be sleeping on and will be available if you need any additional help in setting those up. Tour West provides cots, tents (generally only used in case of rain), sleeping bags, sheets, camp chairs, and water-proof gear bags for all of our guest.

While you relax and take in the beautiful surroundings, your guides will prepare dinner. Every night is different but the menu may include fajitas, BBQ chicken with rice and veggies, lasagna, steak and sautéed mushrooms & onions, and other fresh and scrumptious meals.

At night you will relax on a cot under a vast canopy of stars as the fresh air and rhythm of the river lull you to sleep.

Each morning your guides will prepare a hearty breakfast. You will have a chance to enjoy eating before returning to your campsite to take down your cot and pack up your belongings into a dry bag. After bringing your bag down to the boats, guest participate in the fire line once again and then you are off on another adventure filled day.

Age & Physical Recommendations

We are often asked what the age or physical recommendations are of those who want to take our trips. The recommended minimum age for the trip is 8 years old. We do not have a maximum (We have taken people in their 90's!). We have taken people of all different ages and physical conditions and they have a wonderful time. There are a few things that can make the trip more enjoyable for you if you are able to do.

- Being able to firmly grip ropes or handhold provided while running the rapids
- Enough agility to climb on and off the rafts—this could be as much as a 2-3 foot reach sometimes on wet or slippery conditions. If you are unable to do this on your own please ask for assistance from a guide.
- Fit into our Class V lifejacket (max 58” chest) required by the National Park Service.
- Ability to navigate some uneven terrain on hikes and in camp.

Our principle objective is for you and your fellow guest to have an enjoyable and fulfilling experience. If you are concerned about any of these recommendations please call our friendly staff and we will be happy to discuss your specific circumstances.

If you feel a tip is in order, the average runs between 8%-10%. You may leave it with the trip leader and he/she will distribute it among the crew.

Frequently Asked Questions

1. Who will our guides be?

Tour West feels that we have the best guides in the business. Our guides are all whitewater qualified with an average of fifteen years and hundreds of miles of river experience. Each guide is an accomplished outdoors person with wilderness first responder training a background in natural history and the ability to make each river trip special and memorable.

2. Where and when will I get my river and camping equipment?

Your waterproof duffle bag, sleeping bag, sleeping pad, sheet, small water-resistant bag and cup will be available when you meet your guide at the river. Your cot and tent will be available at the first night's camp. We recommend you only set up a tent if there is a threat of rain. Nothing beats sleeping under the stars!

3. What items will I have access to during the day?

Every morning your waterproof duffle bag containing your sleeping gear and clothing will be loaded on the boat and packed away for the day. Your small water-resistant bag is used to store any of the items that you will need to get to during the day, such as sun screen, hat, camera, water bottle, etc.

4. What is the menu like?

We take pride in offering well-rounded meals that are very appetizing with sufficient quantities for everyone. Breakfast items include many traditional favorites from pancakes to omelets, fresh fruits and juices. Lunches are a favorite for many with a variety of deli meats and cheeses, salads, chips and cookies. At the end of the day you are ready for a hardy meal expertly prepared under a western sky. You'll have fresh salads, chicken, steak, side dishes, and of course, desserts. All meals include water and lemonade to drink.

NOTE: If you have a special diet or allergies, please inform us of your specific needs so that we can determine how to best accommodate you.

5. Where will I bathe?

Although the water in the side streams is generally warmer and it may be tempting to bathe there, soap is strictly prohibited and only allowed in the main river. You may bring a solar shower if you would like but keep in mind that they can only be used in the main river and wet sand near the river not on the beach or in the dry sand. Since there are few trees by the river someone will have to hold it for you. Please only bring one per family.

6. Why is the water so cold?

The river water is released from Glen Canyon Dam on Lake Powell. The water is taken from deep in the lake and is approximately 55 degrees. It only warms up about 1 degree every 20 miles.

7. What about bugs and snakes?

The Grand Canyon is a very friendly place to camp. Being a desert environment, mosquitoes and flying insects are not generally a problem. Snakes and scorpions are seldom seen. Most trips will have the thrill of seeing Desert Big Horn Sheep and many varieties of canyon birds.

8. Can we expect rain?

We never know for sure when it will rain, so even if you are taking a mid-summer trip be sure to bring a two piece rain suit! Ponchos are not recommended.
